Leading Business Houses

RELIABLE FIRMS

A Peerless City and Valley

GEO. C. GAINSLEY & CO

Albuquerque is a young man's city. is the expressed opinion of many strang ers that in no city of the Southwest is there to be bound a greater number of young men bling responsible positions at the head of numbers and mercantile enterprises. The subject of time sketch is a

Mr. tree, C. Gameley, after a residence of hour years in the Perritory in the employ of a prominent mercantile house of althquerque, returned to be that home and perfected arrangements which enabled him to engage in business for himself to Albuquerque on May let of the present year

As a city grows in population and its trade develops in importance there is a tendency toward specialty stores, and is class exclusive boot and since store count be made a success in Artruquerque, Mr traineley decried to establish a store of tue kind. To do this it became necessary that he make arrangements with to leading makers to manufacture shows to his order and stam, ed with the name : his house. That Mr. traineley was em; netitiv successful to this respect may to judged from the following names of known and justly celebrated manufacmanufacture goods or his Albuquety of trade, viz James A Bantister & to Newark, N J , men r fine shows , tree . K. Keith. Campbelle, Mass , men's fine smes, Sez, Schwat & Co., Chrisgo, gen tiemen and fadice' tamous "Royal Bine \$4.00 shoes; Least, Schober & Co., Phila delphia, ladice' the store, and liarling & Postst. Restigator, N.) . indige to

The nest modern store is eligible by cated at 122 South Second street. Mr in fittings or furniture, but his store is well lighted, neatly carpeted and in all its appointments modern and attractive. He has a very complete stock of goods in the best grades, but it should not be in ferred that because the stock is from the most celebrated makers that it consists wholly of high priced goals, for such is not the case. There is an exceptionally good line of modern priced since for miles, gentlemen, maser, feys and condren. Satisfaction is guaranteed in

The sketch would be incomplete with out calling attention to the mail order de partment, which forms an important part of the business. Persons in adjoining towns or in the country by writing giving the number and letter of a show desired ca have their purchase sent to them either express, and can buy as meanly and satisfactority as though they

Were present in person.

Mr. Gainsley obtained his business training in Advance-que and is too well known in trade circles and among the best people of the city to need intro-duction or encomium. He is a thorough boot and shoe man and a wide awake American. He somehow learned that the Stare of Empire had come west and wisely decided to lotiow it. That he may tigel both the Star and his fortune in A

THE BARGAIN STORE.

Railroad Avenue and Third Street.

The name of this store is to all ex perienced purchasers indicative of the stock carried. In the space of this article we can only mention general lines, viz Dry gosie, clothing, furnishing gosie, hate and cape, boots and store, notions and groceries.

Aithough established in 1833 the Bar

gain Store is one of the best known and ment remarkable to a structure of the store and doubtiess counts among its patrons as great a number of the people of Albuquerque and the surrounding country as any other business bouse in the city. of stores of this kind to buy from first hands, and Mr. Webb informs us that he buys largely from manufacturers. In this way the profit of the maidleman is gotten rid of and goods may be placed in the hands of the consumer at the smallest possible price consistent with the cost of manufacture and a very small margin over for freight and handling

The Bargain Store has at all season very full and complete stock of goals in its several lines. This is made possible by the fact that goals are being constantly received, and that the management is always in quest of new patterns. date in all lines.

Mr. Chas. H. Webb, proprietor of the Bargain Store, came first to New Mexico in 1881. After several years residence in the Territory he went East and returned again to the Territory in 1803 and estab-lished his present business in Albuquer-Mr. Webb's mercantile experience as covered a number of years and many lines of trade, and has amply qualified to conduct a business requiring a knowledge of the values of many lines buyer, and buying largely for cash is combled to offer bargains. Mr. Webb maintains the one price sys-

tem, and that a cash price. Purchasers are not required to help make up losees on had credite, for Mr. Webb gives no credit and therefore makes no had credite Every purchaser gets his money's worth

imported and demestic goods; and the trade ex' sling west into California, latest novelties in suitings, coatings, south to 1 Page and north to the Color transcrings and vestings for the Summer rade line. They have no regular traveland Fall of 1895. The latest fashion ing man, but Mr. Fleming occasionally plates are also on display, and patrons visits the trade centers of Arizona and may make a choice of style as well as of New Mexico. The greater portion of the material. Out of town orders will be firm's extensive business is conducted sent direct from Chicago to patrons, with through the mails. Many of the patrons rivinge of examination, and everything of the house are old customers, wh guaranteed to be strictly first-class and that they will receive the same favorable prices, prompt attention and tair dealing in ordering by mail as though they were Mr. Blueher is an American of German

rania. His record of five years business in Albuquerque proves him not only in every way worthy of the patronage of parentage, while Mr Fleming was born gentlemen who are to be well dressed, but as well as a citizen and business man in tiermany, but has been a citizen of the United States since 1874. In reviewing the success of the firm and its member we are reminded of a statement of one of our Consuls, viz. "The German excels in perseverance, patience under trying Rooms 20 and 22 N. T. Armijo Block Circumstances, industry and economy. These virtues enable him to accomplish great results in any field of industry of

interprise he may choose to enter."

A TRADE CENTER.

Albuquerque's Railroad, Mining, Agricultural and Educational Interests.

Old Albuquerque, from which the present greatest trade center of New Mexico follows: ent greatest trade center of New Mexico
takes its name, was founded over two
hundred years ago, and is a city of historic interest. The plan and buildings of
to put them in the permanently product neek. America being the mother of den-tistry Americans have been the inventors the old city are identical with those of ive class? scores of other towns and cities of older
New Mexico. The greater number of the are considering this problem—both from buildings were constructed of adobe, in the standpoint of experience and theory point College of Dentistry in the class of 1888. For five years previously to locating in Albuquerque in May, 1893, he was in successful practice in Plymouth, Pa. but moved to New Mexico for the benefit tecture is seen in the churches, which still most important branch of economic study of his wife's health. His professional remain and attest the durability of this its annual meeting for 1895 at Albuquer of his wife's health. His professional that the A. T. A. S. F. Ry. Company has been fortunate in its choice of manager. It is American purchases buys only from the numbers among his patrons many of building. The attempt at adornment in the least money of the Royal control of the Royal control of the city and section. building. The attempt at adornment in the churches is seen mostly in the carvevery state in the Union Papers will be ing of doors and altars; and in the church architecture, as in the ordinary solots building, we see the atoriginal civilization of the Pueblos combined with that the corner of Railroad avenue and Second street. He keeps fully abreast of the of Spain and Spanish America.

Until 1880, when the Atchison, Topeka & Santa Fe railroad reached this point in gress will have an opportunity to inspect its progress toward the Pacific, the region the fine fruit and farming districts of Net of country commercially tributary to Old Mexico and Arizona at small expense.

The Santa Fe route will make generous! Albuquerque had changed but little since low rates for side excursions. the beginning of the century. Back in two territories may be seen in miniature the fifties and sixties goods were hauled by ox and mule teams from Kansas City the Tarritorial Pair, which is to be held at Albuquerque while the Congress is in and Leavenworth, on the Missouri river.

and Leavenworth, on the Missouri river.

While a definite announcement cannot be supplyed by the details of rail by rail, but not until 1880 were they be made now as to all the details of rail brought to the Rio Grande. In that year a company of enterprising Americane, in a general way that the rate will be less seeing the opportunity for building a mod-ern city in a trade center which had for a Kansas, Oklahoma and Colorado, and on century maintained one of the largest towns in New Mexico, located a town site allow visitors sufficient time for reaching

amount. The city has large wholesale and retail houses in all the different lines, miles from Kansas City, and 5,000 fee miles from Kansas City, and 5,000 fee The "Old Fowa" he \$300,000.00 and deposits of twice that etc. carrying stocks of from \$5,000,00 to above the sea. The "Old fowa" ha \$75,000.00, and doing business through-been known as a place of some promi-nence for two centuries. It forms the his Texas, Colorado and California. There torical and picturesque portion. The business is done in the more modern seare two flouring mills, two ice factories, tion. Here are upward of 10,000 people one large brewery, a private foundry and who have built up a typical western city machine shop, employing forty skilled workmen, and the A. & P. Railroad shops, employing from three hundred to division of the Banta Fe system stretches five hundred men, besides a number of out a long arm from Albuquerque across manufacturing enterprises of lesser magnitude. The city has an admirable school the main line reaches south to El Passastem, her four ward school buildings baving cost \$60,000 00, and the buildings having cost \$60,000 00, and the building and equipment of the Territorial University, which is located here, a much larger sum. The Susters' Select School and Academy, which offers exemptions facility Academy, which offers exceptional facili-Academy, which offers exceptional facili-ties for the special and careful training of car line, water works, gas works, ter youth, is also worthy of especial mention.

Not less noteworthy is Albuquerque's free city library, containing a thousand cial club building, many elegant stores of the best publications, tree to all for the using, and housed in a magnificent modern room, which would be appropriate for a like purpose in a city of two hundred thousand people. And the city bern of one of ornamental stone have recently been opened up in tribute. is justly proud of its Commercial Club have recently been opened up in tribubuilding, which is one of the finest mod-ern structures in the territory, and was peaches and other fruits, as well as imconstructed at a cost of \$80,000 00 The mense crops of farm products.

Commercial Club is composed of the leadJ. E. Frost, Land Commissioner A. T. S.

Trade or Chamber of Commerce, 1 members are leaders in all public enter. prices; they have the implicit confidence of their fellow citizens, and to them, united as one man, is due the great prosperty and phenomenal growth of Albuquarque The space at our disposal in this article fortule even cursory mention of the advantages of Albuquerque or the natural resources of the country tributary to the city; but we are sure that the observing visitor will agree with us, and with the far-seeing business men of the city, the no city of the southwest possesses any advantages over Albuquerque in either natural advantages and resources or a the class of people that have been at tracted here. Neither do we believe that any city in the southwest has the combined future of ours as a railroad center. manufacturing center, a commercia center a mining center, as the center growing region, and as a climatic resort We have vast deposits of the metals, gold, silver, iron and copper all around we have the coal in unlimited quan tities for smelting purposes, for manufacturing purposes, and to supply the railroads. Several railroads have been projected to Albuquerque, and some them will doubtless materialize with the revival of business in the money centers. The city now has a trade extending over the two territories and into California Texas and Colorado. This is now one of the great wool markets of the southwest and successful storage of water and irra gaties of thousands of acres of land in the
